Adore Multiline Products

<http://www.adoregroup.co/>

We are adept in the manufacture, trade and supply of Industrial Silica Lining. We specialize in the production of machines used in the tattoo making industry and Rock crushing industry.

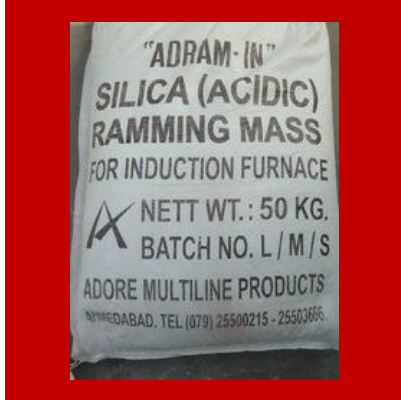

About Us

Our organization was established in the year 1991 under the name Adore Multiline Products as a prime manufacturer, supplier, exporter and trader of Silica Lining Material. We have been dealing in Foundry materials, Minerals etc. since 1968 through our sister concern. Our this experience of decades gives edge over other manufacturer in the line. Over years of dedicated services, we gained a name of high repute within the industry due to the impeccable manufacture of our wide ranges of products. We make earnest efforts to stand up to the demands and expectations of our clients on a regular basis by maintaining constant communication. Our client servicing team takes care to adhere to specified needs of the client and act upon them to provide the best suited solutions within economical ranges. We take immense pride in associating ourselves with clients of high repute within the industry and invite newer clients to form associations with us while promising mutual benefit and deliverance.

We have established our organization within an infrastructural base of modern excellence. Our various departments of vast specializations work in coalition with each other to provide unmatched results that are unique to our industry. Each department houses experienced professionals that are adept in their specific line of work and function in an organized manner to facilitate regular flow of production. Our manufacturing division makes use of modern technique to convert best raw...
